

# Project Status Report Week 15

MS-CS-Insights

## Attendance

### TA Meeting

Ibrahim - No  
Sean - Yes  
Sang - Yes  
Owen - Yes  
Jeremy - Yes

### Sponsor Meeting

NA

### Team Meeting

Ibrahim - Yes  
Sean - Yes  
Sang - Yes  
Owen - Yes  
Jeremy - Yes

# Project is: behind/**on**/ahead(of) schedule

## Announcements

- Next meeting will be last meeting of the semester
- Everyone do the peer evaluation survey!!! by Dec 12 night (next Thursday night)
- Final take home essay due by Dec 12 night (next Thursday night)
- Our TA informed us in our last TA meeting that timesheets are necessary, we will be filling out timesheets each week from here on out!

## General Goals

- Project plan - screenshot jira (where we organize our tasks aside from the status reports), submit as a pdf. (due Dec 8th)
- Summary Video - demo the project, nothing huge (due Dec 8th, submit as mp4)
- Continue enhancing website
- Keep it relatively laid back this week, everyone is extremely busy with final projects and such

## Sentiment Analysis - Ibrahim

### Progress from last week

- NA (thxgiving break)

### Goals this week

- Work on project deliverables
  - Project plan
  - Project presentation
- Pull request for the new and improved model
- Ensure model works properly post pull request

## Slack API integration - Sean

Progress from last week

- NA (thxgiving break)

Goals this week

- Start on graphs for the front end with Jeremy. Look into a library for pie charts and other useful ways of displaying data

## Front End + UI Design - Sang

Progress from last week

- NA (thxgiving break)
- Bonus:
  - Front end enhancements
  - Fixed bugs

Goals this week

- Continue fixing bugs
- Potentially run website demo during presentation (Sang or Jeremy)

## Database - Owen

Progress from last week

- NA (thxgiving break)

Goals this week

- Continue making status reports
- Continue ensuring group meets all deliverables
- Organize time for group to meet for project presentation
- Make progress on front end
  - Add encryption to front end db
  - Finish basic front end and merge with main branch

## Server - Jeremy

Progress from last week

- NA (thxgiving break)
- Bonus:

- Changes to docker file
- Fixed a very difficult bug involving fetching messages

#### Goals this week

- Start work on graph for front end with Sang
- Potentially run website demo during presentation (Sang or Jeremy)
